

FitTrack Watch 5

User Manual

Overview

The FitTrack Watch 5 is a fitness smartwatch with heart rate monitoring, GPS tracking, sleep analysis, and a 7-day battery life. It is water resistant up to 50 meters (5 ATM).

Package Contents

- 1x FitTrack Watch 5
- 1x Magnetic charging cable
- 1x Extra wristband (large)
- Quick start guide

Safety Instructions

- Charge only with the included magnetic charging cable.
- Avoid exposing the watch to extreme temperatures below -10C or above 45C.
- Consult a physician before relying on heart rate data for medical decisions.
- Discontinue use and consult a doctor if skin irritation occurs.

Setup Instructions

- 1 Charge the watch fully before first use (approximately 90 minutes).
- 2 Download the FitTrack app and create an account.
- 3 Enable Bluetooth on your phone and pair the watch from within the app.
- 4 Complete the on-watch setup wizard to set your profile and preferences.

Usage

Swipe up on the watch face to view daily stats (steps, heart rate, calories). Press and hold the side button to start a workout session with GPS tracking. Sleep tracking runs automatically overnight and syncs to the app each morning.

Troubleshooting

Watch won't charge: Clean the charging contacts and ensure the magnetic cable is properly aligned.

Heart rate readings seem inaccurate: Ensure the watch is snug on your wrist, above the wrist bone.

GPS not locking: Move to an open outdoor area away from tall buildings and wait up to 60 seconds.

Warranty

The FitTrack Watch 5 is covered by a 1-year limited warranty against manufacturing defects. Water damage from improper charging cable use is not covered. Contact support@fittrack-example.com.
